

# Flying High

**Newsletter: April, 2011 No. 1**

---

## **OPERATIONAL FLYING DAYS**

Duty Officers are now rostered on Sundays, Mondays, Wednesdays and Fridays from 0700 to 1300. Pilots wishing to fly before 0800 are requested to contact the DO to arrange this. There will be normal flying over the Easter period. No flying on the Tuesday which is in the holiday period.

## **ALTIMETERS**

Management Committee on behalf of the Club is prepared to purchase in bulk Eagletree V3 ALTIMETERS to pass on to Members at a reduced price of around \$25. Any Member who would like one please contact Secretary. Members may wish to purchase their own Eagletree V4 logger from HobbyKing at \$50.

## **CLUB SHIRTS**

If enough orders are forthcoming the Club will place an order for shirts with our Club Badge printed on the front and if required the slogan "One more Launch" on the back. Contact Secretary if you would like to order a shirt.

## **CLUB CONTACTS**

Brett Hodder (Pres) 3824 7182; Jim Grant (CFI) 3821 1246; John Tranter (Sec/Treas) 3206 0757 email: [tranterjp@bigpond.com](mailto:tranterjp@bigpond.com).

## **NOISE EMISSION**

Duty Officers are now authorised to accurately assess any plane that they consider too noisy for operation at the field. This is an accurate test involving a calibrated measuring instrument.

## **CLUB TRAINER – RADIAN**

Your Management Committee has authorised the purchase of a Radian for training purposes. This plane should shortly make its

appearance at the field and members are urged to use it via the buddy box.

## **CLUB TRAINER – STINSON**

Shortly the Stinson Park Flyer Trainer will be operational for all members to avail themselves of.

## **PROSTRATE OR PROSTATE**

Good to see one of the four Johns (Boterhoek) in the Club back on deck after a brief spell with the "Flying Doctor" in the hospital hangar.

## **NEW MEMBERS**

Welcome to New Members father and son David and Kristopher Toombs and off to a very good start by purchasing a Radian.

## **SILVER BADGE QUALIFICATION**

Management Committee has decided that a "Silver Wings" Club Badge will be introduced as a middle level to be reached before trying for the MAAA "Gold Wings Badge". This Badge is only within RAMS and not recognised by other clubs at this stage. CFI Jim is working on the syllabus and qualification levels.

## **VALE**

It was sad to receive the news that a stalwart Member of the Club and a great sailor Don West had passed on to the great "Hangar in the Sky". Happy flying Don.

## **OUTNUMBERED**

Wednesday, 13<sup>th</sup> April, 2011 saw nineteen pilots at the flying field enjoying perfect weather - which I think must be a record - weatherwise and attendance. However we had three operational modes in operation at the same time (i.e. Helicopter, Winch driven glider and Park Flyers large and tiny). This can cause problems so if you are in doubt as to

which field to use please talk to the DO of the day who will advise. This will help to preserve the harmony amongst members that we now have and cover any safety issues.

## **LIFE MEMBERS**

The Management Committee has decided that in the future Life Members of the Club will not pay any Membership Fees and will attend with wife/partner any functions as non-paying guests.

## **VICE-PRESIDENT**

Abdullah is at present doing a spot of "square-bashing" in Turkey.

## **CONGRATULATIONS**

To Bo Ericson (Bronze Wings Helicopter); Hans Van Diest (Bronze Wings Glider) and Mark Hudgson (Bronze Wings Glider) who successfully passed the test.

## **RADIAN COMPETITION**

Congratulations to last competition winner Brett. The first round on April 10<sup>th</sup> of the next comp was won by Ken Anning with 67mAh used.

## **HEARTY THANKS**

Not many of us know of the amount of work that Sec/Treas entails so from the Management Committee hearty thanks to Doug Bartlett on the excellent job he has performed in this exacting role. His past efforts have ensured a smooth changeover for the new Sec/Treas.

## **FOR SALE**

E Hawk Thunder Tiger V tail 1.5 mt. Brand new in box (Yellow). App. \$180.00 at Model flight [http://www.modelflight.com.au/thunder\\_tiger/thunder\\_tiger\\_e-hawk\\_1500.htm](http://www.modelflight.com.au/thunder_tiger/thunder_tiger_e-hawk_1500.htm)
