Sunday Competition

Graeme took out the 29th May competition with a 161mAh score.

Dark Horse Diet stunned everyone in the competition on 5th June with a creditable 131mAh.

Ken Anning attained a height of 1815ft which is the record at present.

Placings to date are: 1. Graeme; 2. Brett; 3. Jim; 4. Dave; 5. John J; 6. Tim; 7. John B; 8. Matt; 9. Ken A; 10. John T; 11. Diet; 12. Gordon; 13. Ernie.

With only a couple of rounds to go the first three places are secure. However the fourth place could go to any one of the next six placings.

Altimeters

Altimeters from HobbyKing are out of stock at the moment but as soon as stock is available we will order another five. Three are already spoken for – Diet, Mark A and Tim.

Pilots at Field

I could be wrong but I believe that the number of Pilots at the field on Sunday, 5th June was something of a record with up to twenty five in attendance.

If we didn't have 2.4G there would have been a queue for frequency allocation – remember the old days of 36mg transmitters and receivers! And perish the thought 29mg Tx and Rx.
