

Corona Chronicle

No 6, July, 2020

Answer to the: Corona Chronicle No.5 Quiz

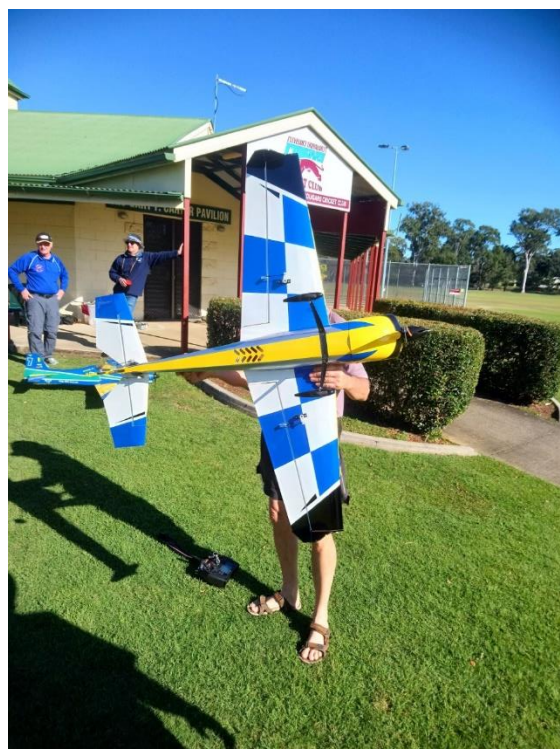

- | | |
|-------------------|---------------|
| 1 Roy Jelley | Aeroplane |
| 2 Cal Moss | Rolling stone |
| 3 Phill Smith | Black |
| 4 Ray Misson | Impossible |
| 5 Ron Cheeseman | Brie's chap |
| 6 Chris Wrightson | Wrong Heir |
| 7 Jim Grant | Permit |
| 8 Mike Sparrow | Alcatraz |

Paul K wrestling with his restyled and reformed Radian.

RAMS AGM

To be held on Sunday, the 2nd August, 2020. Starting at 1000h all Members are urged to attend and vote for a new Committee. Normal flying operations exist until the meeting and afterwards. As per usual all Members are invited to the Club barbeque.

*Russell's latest acquisition
a SLICK 580 EXP.*

*Steve W's contraption made up of three
planes: Mustang, Extra and maybe a
Trojan? Who knows?*

QUIZ No 1

The sign (photo right) denoting the Wirraway is somewhere local and depicts an historical event. Where is it?

New RAMS Members

A very warm welcome is extended to all our new Members.

Remember we have a very good and wise brains trust in our membership who can probably answer all your problems on aviation or any other subject. So don't hesitate to voice your opinion or conversely seek help. The so called "peanut gallery" brains trust meets every flying day to discuss and advise.

RAMS Website

Have a look at our new website wholly set up by our new Member Rodney. He has put a lot work into this and you can see the excellent result on www.rams.asn.au

Phill's good and bad day at the field 19/07/20.

Photo shows the result of a probable elevator fail and subsequent crash into the black swamp and a tree. The excellent good news is that Phill successfully passed

his Gold Wings (P) qualification. Well done Phill.

Also, a well done to Cal who gained his Gold Wings (P) a couple of weeks ago.

Next hurdle for both is the Flying Instructors Course. ASAP we hope as we desperately need qualified Instructors.

A calm day flier

Thought I'd include a picture of a lovely little biplane that our recently re-joined Member Steve D kindly donated to me.

QUIZ No 2

Do you know this club member? A clue, he is a staunch Member of the veranda peanut gallery.

This photo was taken in black and white with a Kodak camera. The member in the photo is 13 years old and is holding his first model plane. The plane was constructed using a kit purchased from a hobby shop using funds earned from working in a greengrocer shop on Saturday mornings.

The plane is a 35 foot (about 10 metres) control line type, has a wing span of 629mm, is powered by a 1.5cc diesel motor swinging a 7" nylon propeller.

The plane was crashed on its first flight undertaken by a friend two years older who claimed to know how to fly. The plane completed one full wing over (A semicircle vertically)

The member continued to fly control line planes having learned the hard way, without the help of his friend, until he was fifteen

when flying planes was replaced by more pressing urges..... Like an apprenticeship and motor cars. He had his driving licence on turning sixteen.

Do you know this club member? A clue. He is a very vocal member of the peanut gallery.
